

Enhancement Class

P.6 Speaking (Group A)

A group of P.6 students learn to prepare their own speech and interview with the help of various graphic organisers and e-learning tools. They share ideas and learn to communicate well with others through group discussion and presentations. Apart from constructing the content, they learn to deliver a speech by speaking with a loud, clear, and confident voice and appropriate posture.

We take turns to share our views.

Would you like to watch the videos of our speech?

We enjoy learning from our classmates!

P.6 Speaking (Group B)

During lessons, students practice the skills of organizing information to form a speech using e-learning visualizers. They also learn the technique of delivering a good speech, like voice projection and appropriate posture, through group sharing and presentation, and get individual feedback from the teacher and their peers for the preparation of the SSPA interviews.
