

English Newsletter

This is our English Newsletter team.

This year, English Newsletter aims to publish three issues throughout the school year, which included various topics, which are school activities and events, personal experiences, holiday and festival, etc. Through different topics, we hope that students are more engaged in writing activities, which can also give them a sense of appropriation to the students who has engaged during the whole process. Meanwhile, we also wish our schoolmates can read others work and seeing life from a different scope.

We also design Christmas cards and write down the wishes for the coming new year.
