

## English Drama

The English Drama team has recruited 12 members this year. We have big brothers and sisters who have experience of participating in last year's competition. Also, we got some new faces. We work according to the spirit of inheriting that the senior students share what they learnt previously to the new blood.

Through various activities and games and discussions, we drafted our script from scratch. Meetings were full of excitements and sparks. Though it was really time-consuming letting students to amend and polish the plot, they were highly involved and engaged and thus they took active roles in preparing the backdrops, the props and the background music. With all these efforts, I believe the show will be a great success!

Catch my names!

Team work is the path to success.

Let's do it seriously!
